

# Design Your Bucket List

**Instructions:** Don't ever hold back or go easy on **your bucket list**. In fact, it's the only list that should matter, especially if you find yourself getting stuck or not feeling fulfilled. What from your bucket list will give you a sense of purpose, of heading in the right direction? Feel free to write and rewrite this as often as necessary, too—as you grow and check-off items and come up with more ways to increase your joy. Oh, and we started it for you! Don't forget to check at [thewritingorbit.com](http://thewritingorbit.com) for more writing + astrology worksheets!

host a neighborhood potluck

create a happy family life, your own

learn new language (or sign language)

go on a television game show

write a book

be known for something great
